Art Unit: 1626

**DETAILED ACTION**

**Claims 1-19 are pending in the application.**

***Election/Restrictions***

Applicant's election without traverse of Group I in the response filed February 24, 2004 was acknowledged in a previous Office Action. The requirement was deemed proper and made FINAL in a previous Office Actions.

Claims 7-15, 18 and 19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention. Election was made **without** traverse in the response filed February 24, 2004.

Rejections made in the previous Office Action that do not appear below have been overcome by Applicants'

Art Unit: 1626

amendments to the claims. Therefore, arguments pertaining to these rejections will not be addressed.

### ***Claim Objections***

Claims 1, 3-6, 16 and 17 are objected to for being substantial duplicate of claim 2. When two claims in an application are duplicates, or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to reject the other as being a substantial duplicate of the allowed claim. M.P.E.P. §706.03(k).

### ***Response to Arguments***

Applicant's arguments filed October 10, 2006 have been fully considered but they are not persuasive. Applicant argues that none of claims 1, 3-6, 16 and 17

Art Unit: 1626

require that the crystalline forms claimed have the diffractogram depicted in claim 2.

In response, Applicant discloses in the instant specification and claims one crystalline form of a compound. Although the description of the one crystalline form in claims 1, 3-6, 16 and 17 is not as detailed as in claim 2, claims are all directed to a single crystalline form, i.e. Form V. Further, since no other ingredient is recited in the pharmaceutical composition of claim 16, the claim reads on just Form V. Therefore, claims 1, 3-6, 16 and 17 are directed to the same product as found in claim 2 and hence, are duplicates of claim 2.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-6, 16 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 3-6, 16 and 17 are rejected for being substantial duplicates of claim 2.

***Allowable Subject Matter***

Claim 2 is allowed over the art of record.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1626

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

This application contains claims 7-15, 18 and 19 drawn to an invention nonelected without traverse in the reply filed February 24, 2004. A complete reply to the final rejection must include cancellation of

Art Unit: 1626

nonelected claims or other appropriate action (37

CFR 1.144) See MPEP § 821.01.
